

All Bonded Liquor Will Be Stored In a Few Warehouses

WASHINGTON, June 21.—Prohibition Commissioner Haynes expects soon to have all the bonded liquor in the country stored in a few big warehouses.

At present the liquor remounts are stored in 304 buildings under internal revenue bureau guard-ship.

This concentration measure, Haynes said, will be of material benefit in that the liquor will be more securely protected at less expense to the government and to a large extent will do away with tax-free warehouses, where many robberies have occurred in the past.

Removal of liquor to these centralized storage buildings is authorized by regulations just issued by Commissioner of Internal Revenue Blair in accordance with a provision of the treasury appropriation act, approved last February.

"These concentration warehouses," Haynes said, "will be selected at points throughout the country where it is considered likely that owing to the geographical location the trade can best be supplied. They will be backed by men of unquestioned integrity so that the owners of the spirits will in every way be fully protected."

When any transfers to such concentration warehouses are made, it will be necessary for the owner, distiller or proprietor of the concentration warehouse to give a bond covering the tax at the \$2.20 per proof gallon rate, and the transportation of spirits from the internal revenue bonded warehouse where now stored to the concentration warehouse.

The owner of the concentration warehouse will also give a bond not to exceed \$100,000 for the safety and protection of the spirits stored with him. All distinction between warehouses—that is, distillers, special and general bonded warehouses—is removed in so far as the bottling of spirits in bond is concerned.

"All spirits thus removed will be gauged prior to removal so that the owner of the concentration warehouse will know definitely just what spirit is both as to quantity and proof, go into his place of storage."

Jap Warships To Protect Fishermen

VLADIVOSTOCK, Siberia, June 22.—The action of the Japanese government in notifying its nationals that those who held fishing rights along the coast of the Maritime Province last year should fish the same grounds this year and should be protected by Japanese warships despite the fact that they had no licenses for this year from the Vladivostok government has caused a considerable stir here. The Japanese claim was that the Japanese had no opportunity to renew their licenses the action for which was being held when the Japanese could not be present.

Premier Koffinoff of the Primor government refutes this. He says the action which had been postponed five days at the request of the Japanese was finally held on May 4th under the agreement between Japanese and Russia. He announced that his government would also send fishery patrols out to protect the Russian fishermen in the waters of the Japanese being fished by the Japanese so there seems to be a prospect of a clash when the season opens.

Representatives of the Vladivostok Board of Trade have gone to Tokyo to try to settle the dispute. The Russian fishermen who purchased the lease held before the Japanese government in the hope of starting negotiations to settle the dispute. Japanese is said to be quite willing to negotiate if no claims for compensation are lodged.

Turkish Sultans Now Protected

CONSTANTINOPLE, June 22.—Anxiety for the safety of the Sultan of Turkey has prompted the local authorities to consider the substitution of a closed American automobile for the time-honored open barouche in which the head of Islam every Friday is borne to prayer from the Yıldız Palace to his private mosque. This public "going-to-prayer" ceremony has existed from the time of Mohammed and is one of the few remaining royal spectacles to be witnessed in Europe today.

Every Friday, at high noon thousands of the faithful as well as hundreds of foreign visitors flock to the outskirts of Constantinople to witness the Turkish potentate followed by a dignified entourage riding in a guided carriage to do honor to Allah. Thrones of Turkish soldiers, at one from the and policemen line the curbstone and guard with alert and furtive eyes "the sick man in Europe."

Some of the palace officials feel that their sacred duty is exposed to attack by evil-doers, and they have suggested that the threatened, slow-moving carriage be replaced by a speedy, closed limousine, which will afford him greater protection.

KILLS SHERIFF AND PREACHER, THEN HIMSELF

ALBANY, Ohio, June 21.—David F. West, who shot and killed Sheriff Kendall and Reverend Fox, head of his church here today, told tonight that he had killed himself.

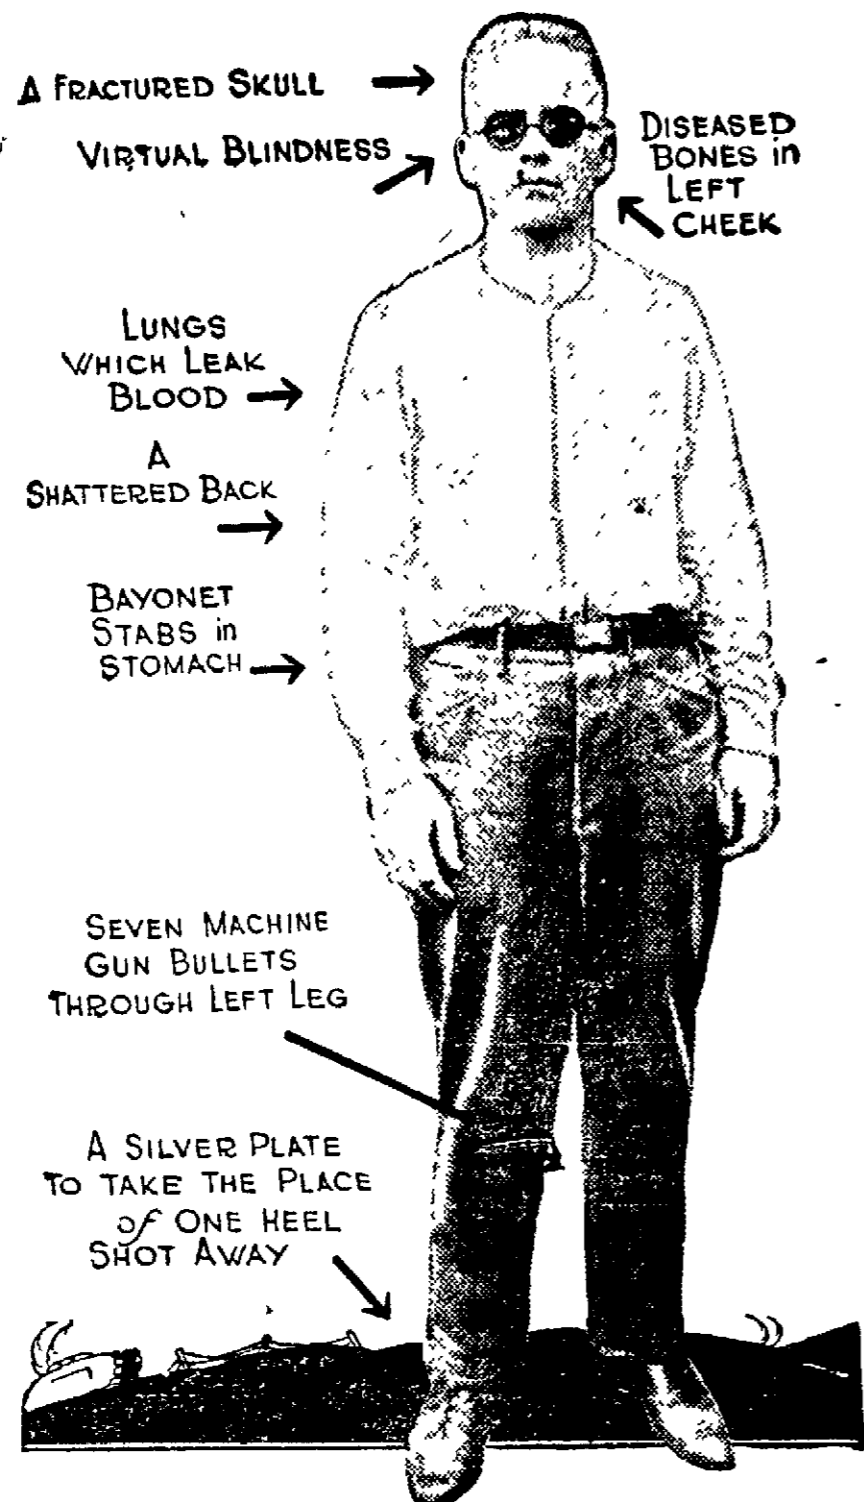

Mr. West, 35, of the town of Albion, county, and the Reverend Fox, head of the church here, were shot and killed today by David F. West, a former member of the church. The sheriff had gone to the church to depose West, who had been a member of the church for many years.

It was announced that the case was taken by the Federal court in Springfield, Ohio.

JUDGMENT AFFIRMED

SPRINGFIELD, Ohio, June 21.—The Supreme court of Ohio today affirmed the judgment of the Federal court of Cook county, which sentenced William Brown Lloyd, reputed to be a wealthy and 18 of 39 other communists to imprisonment for alleged attempts to overthrow the government. Contrabands are a menace, the court declared.

Proof America's Disabled Soldiers Have Checking Up On Careless Drivers

TEN PER CENT DISABLED—THAT'S HOW DOCTORS OF YOUR VETERANS' BUREAU RATE STEVE BORISUK, EX-SOLDIER. THIS PICTURE SHOWS STEVE AND JUST A PART OF WHAT AILS HIM.

BY HARRY B. HUNT

WASHINGTON, June 22.—This is the story of Steve Borisuk, former soldier for Uncle Sam.

When you have read it, you may understand something of the cynicism with which thousands of disabled soldiers regard the promises of the government to give them just aid and compensation.

It is now more than 43 months since the armistice which ended the fighting. But peace, for Steve, has meant one hospital after another.

Among the mementos of his fighting does which Steve lists are:

A fractured skull.
Lungs which leak blood.
Bayonet stabs in stomach.
A shattered back.
Seven machine gun bullets through left leg.

A silver plate to take the place of one heel shot away.

Let the medical sharps in the United States Veterans' Bureau have just re-rated Steve's physical disabilities.

They now report these are less than 10 per cent and that therefore, beginning July 1, he will be dropped from the list of disabled veterans receiving disability compensation!

STEVE REFUSES TO MAKE COMPLAINT

Steve isn't kicking. Money doesn't mean much to him, anyway. Also, he's used to having his compensation rating changed.

For the first nine months after his discharge Steve was rated as having 13 per cent disability. For that he drew \$12 a month.

Then his rating was changed to temporary total.

Later, in June, 1920, it was decided he was totally and permanently disabled and he was so rated. This gave him \$30 a month disability pay.

That didn't last long, however, his rating being shifted to temporary total again, and payments withheld on the claim that he was incompetent.

DECLARED COMPETENT BUT RATING IS CUT

Demanding a re-examination to clear up the matter of competency, so he could collect his pay, Steve got it. He was declared competent, but at the same time his disability rating was cut to 10 per cent. A 10 per cent disability allowance pays \$3 a month.

For the time being, Steve's rating was shifted again to a temporary total rating.

And now the temporary total is supplanted by "less than 10 per cent," which effectively removes Steve from the Veterans' Bureau payroll.

Only six weeks ago an operation was performed to remove some diseased bone in Steve's left leg.

Next week they're going to take out his right eye, Steve said. "The left is in bad shape, too. Mustard gas."

He lived for a moment the double life of a man who had been a soldier. He had a pension, they were clearly in his mind.

HEARS HIMSELF IN GRIP OF DREADED TUBERCULOSIS

A cough of coughing shook the patient. He came to a window still ill.

weakness. "That cough—it's like tuberculosis. I keep spitting blood. The doctors are talking about sending me to a different climate when they get me patched up enough here."

Steve "got his," he explains, at Chateau Thierry and Belleau Wood. At the former he got the gas and seven machine gun bullets in the left leg. At the latter he smashed in the head of a German with his rifle butt just as the latter reached him with two bayonet jabs.

On the heels of that a big shell hurled him into a shell-hole, cracking the backing of his head and left shoulder and injuring his spine so he still has to wear a brace.

That ended the overseas fighting for Steve. Most of his battles since that time have been with Veterans' Bureau authorities. Losing battles, on the basis of the latest rating.

One of the illuminating factors in Steve's case—illuminating as to administrative efficiency in the bureau—is that in the first district, including Brookline, Mass., his home, Steve is listed as incompetent and insane. In the fourth district—Washington—he is certified as competent and sane.

Rupture Expert Here

Seeley, Famous in This Specialty, Called to Danville.

F. H. Seeley, of Chicago and Philadelphia, the noted truss expert, will personally be at the Burton Hotel, and will remain in Danville Friday only, June 23.

Mr. Seeley says: "The Spermatic Shield will not only retain any case of rupture perfectly, but contracts the opening in 10 days on the average case. Being a vast advancement over all former methods—exemplifying instantaneous effects immediately appreciable and withstanding any strain or position no matter the size or location. Large or difficult cases, or incisional ruptures (following operations) specially solicited. This instrument received the only award in England and in Spain, producing results without surgery, injections, medical treatments or prescriptions. Mr. Seeley has documents from the United States Government, Washington, D. C., for inspection.

He will be glad to demonstrate without charge or fit them if desired. Business demands prevent stopping at other places in this section.

For the full story of this notice has been verified before the Federal and State Courts—F. H. Seeley, Home Office, 117 No. Dearborn St., Chicago.

How He Cured His Rupture

Old Sea Captain Cured His Own Rupture After Doctors Said "Operate or Death."

His Remedy and Book Sent Free

Captain Collings called the seas for many years; then he sustained a bad double rupture that soon forced him to not only remain ashore, but kept him bedridden for years. He tried doctor after doctor and truss after truss. No results! Finally, he was assured that he must either submit to a dangerous and abortive operation or die. He did neither! He cured himself instead.

Captain Collings made a study of himself of his condition—and at last he was rewarded by the finding of the method that so quickly made him a well, strong, vigorous and happy man.

Anyone can use the same method. It's simple, easy, safe and inexpensive. Every ruptured person in the world should have the Captain Collings book, telling all about how he cured himself and how anyone may follow the same treatment to their own home without any trouble. The book and medicine are FREE. They will be sent prepaid to any ruptured sufferer who will fill out the below coupon. But send it right away—now—before you put down this paper.

Careless Drivers

BALTIMORE, June 22.—Are drivers of motor vehicles becoming more negligent, less careful of their own safety?

It was seen from actual observations made by the Baltimore and Ohio Railroad. For more than two years the railroad has been plying men at crossings where there are usually a number of automobiles passing.

These observers make note of the number of machines crossing and take down the license numbers of those whose drivers fail to take any precaution to assure themselves that it is safe to pass over the tracks. This safety precaution consists of the driver slowing down or stopping, and then looking and listening. When a driver dashes over without taking any of these precautions, his license number is noted and a card telling him of his negligence is sent him, with request to guard his life and property the next time he goes over a railroad crossing.

In the year, 1920, the Baltimore & O. R. took note of 385,000 cars in the states through which it runs. In that year, according to the records of these observers, there were 25,690 drivers who failed to take any precautions at highway crossings. This was 6 per cent of the total observations made.

In April of this year there were 10,477 automobiles checked by the railroad's observers. There were 972 of the drivers of these reported as failing to stop, look or listen before passing over the tracks. This was a safety "failure" of 18 per cent.

For the first four months of this year there were 58,818 machines observed and the "failures" reached 11 per cent.

The increase in the number of drivers failing to take safety precautions seems clearly to indicate, in the opinion of the road's safety department, that the automobile driver is becoming more negligent.

Royal Laundry Has Been Closed

LONDON, June 22.—Like many other well-to-do people the king is doing his best to cut down expenses in these days, and he is not too proud to let his faithful and loyal subjects know it. He considers that thereby he is setting them a good example.

In order to effect economies he has decided to close the Royal laundry at Richmond which was opened in the days of Queen Victoria. It is here all the washing has since been done.

for the royal household. The work is henceforth to be given to a laundry company which will take over the whole of the employees of the royal laundry, numbering 24, so that they may not lose anything by the change. This also is by the king's directions, it is said.

AN OPPORTUNITY To Own Your Own Business

ONE of the largest, nationally advertised storage battery companies, with a present organization of 5,200 representatives, offers an opportunity to men of character and ability to own and operate, on a small capital, a service station in Danville, Va.

Experience in the sale, care, and repair of automobiles and storage batteries is preferred but not absolutely essential. Good standing in your community will have a lot to do with placing this profitable franchise in your hands. If you can qualify, write for particulars to Mr. H. S. Bentley, District Sales Manager, 30 East 42nd St., New York, N. Y.

—Don Manning, Actor?

"whose gaiety and good looks made all other men seem common-place and anxious."

—Ben Wheeler, Manufacturer?

"keen and bright as the knives and razors he so efficiently manufactured."

—Billy Barton Architect?

"not so successful as Wheeler... a wholesome blend of good humor and quiet resolution."

MOLLY

"spirited and responsive to romantic appeal... but as sure as an adding machine."

"Whom Shall Molly Marry?"

Molly's problem is one that must be faced by every girl the problem that every mother has faced. Who, from the list of eligible men, will make the best husband? What romantic path will lead into the Road to Happiness? Molly found the right path but she first plunged through a maze of tangled trails. Her story is told by a brilliant writer whose knowledge penetrates the heart of women. "Whom Shall Molly Marry?" is

FRENCH WOMAN CONVICTED; HER DAUGHTER FREED

PARIS, June 21.—(By The Associated Press.)—Madame Marie Louise Resnais, writer of feverish verse and sensational stories under the name of Irena Alford, was today convicted of the murder of her husband and shipping the body away in a trunk, and sentenced to 20 years hard labor upon a confession made in open court by her daughter, Paule Jacques, tried jointly with her, but acquitted.

Then the mother, who had just been condemned by her daughter, became her daughter's defender, she implored the jurors' mercy for her daughter and later, when she was convicted and the daughter acquitted, she thanked the jury for her daughter's freedom.

"Forgive my daughter," she begged them. "Pardon this child. As for me, who am old and withered, I abandon myself to you. This is not a reproach. A woman should remain young. Punish the old one, for she had a youth, she has lost it in work, in doing her duty. She is guilty because she is old."

Mother to the last she remained bitterly sarcastic, saying to the jury and judges: "I see only men here. There are fifteen thousand women in your prisons but none among my judges."

An hour later, when the verdict was read, she smiled when she heard that her daughter was freed with a tenderness that amazed those who had watched her snarled eddies, her hard face, throughout the trial. She smiled as she told the jurors: "I thank you for having acquitted my daughter. As for me, I am innocent."

LINCOLN CAUSED AND DIRECTED THE CIVIL WAR

RICHMOND, Va., June 21.—The Sons of Confederate Veterans today took action looking to the comfort of the Confederate Veteran—rather than to shower luxuries and regal entertainments on the hundreds of thousands of veterans and their families. The resolution to this end was adopted without dissent. It is known that there have been reunions when the comfort of the veterans was made secondary to the minds and sponsors and they declare that the time has come to call a halt.

The Sons also voted against any consolidation with the veterans, saying they prefer to support the veterans and to devote their energies to that task.

Possibly the outstanding feature of the entire session of the Confederate Veterans was the adoption of the report on the war and the peace. The work and under personal direction of President Abraham Lincoln, who conceived the idea and put it into execution. Johnstor's "Truth of the War Conspiracy of 1861" was endorsed and recommended for use in school and colleges of the South. The great parade for tomorrow will formally end the reunion and the details for that are completed. Twenty bands will have a part in that event tomorrow night the veterans and visitors will be leaving for their homes. It has been the largest and most successful reunion in the history of Richmond.

BANKERS ARE ATTACKED

WASHINGTON, June 21.—An attack on the big bankers of the country was made today in the Senate by Senator Ladd, Republican of North Dakota, in the course of an address in support of his plan to tax the banks to pay the veterans of the war a cash bonus.

WHY WOMAN GOES TO GALLOWES DESPITE PLEA OF PROSECUTOR

BY DUDLEY A. NIDDALE.

ATLANTA, Ga., June 22.—Now that women vote like men, should they pay the penalty for crime as men? Even though the penalty is hanging.

Georgia hasn't hanged a white woman but once in its history. That was 30 years ago.

Today, however, Mrs. Cora Vinson is in the Tower here under sentence to go to the gallows on July 28, for the murder of her husband, John A. Vinson, Solicitor General.

John A. Vinson, prosecutor, asked for a life sentence. The jury, however, went beyond his request and voted for death.

Colonel William Schley, Howard former member of Congress who aided in procuring the case, said in an interview:

"Women have demanded equal rights in business and politics. In every way they have indicated their desire to be treated as men. Why then should a woman—solely on sex grounds—be accorded any special privilege by a jury? The time has come when they should be treated like men before the bar of justice."

Has Opinion Changed?

An interesting question. If it is true that sentiment toward women is changing from a chauvinistic to a manly attitude, defense lawyers in future woman murder cases may have to shift their tactics. The old sympathy pleas and sympathy stage settings will be relegated to the place of outworn things in legal practice.

Here are opinions of Atlanta persons and of nationally prominent suffragists who were asked regarding the Vinson case:

She 11 women pay the same penalty for crime as men, even though the penalty is hanging?"

Miss Eleanor Raulo, Atlanta, Ga., president of the League of Women Voters: "Women has passed through the age of dependents into an age she should no longer be a question as to whether she should be treated as a human being, fully responsible for her acts. I believe we women are prepared to accept our responsibility which regards her as an intelligent being. Consequently there should be no longer a question as to whether she should be treated as a woman or as a man. The time has come when they should be treated like men before the bar of justice."

Eastern Views

Grace Humiston, prominent New York attorney, said: "If a woman should be punished as well as a man. But if the prosecuting attorney makes a recommendation for life imprisonment instead of a death sentence, it should be heeded. In hanging a woman, the state would be committing the same crime for which it sentenced her. I am against capital punishment."

Ruth Hase, New York president of the Lucy Stone League which believes woman should retain their maiden names after marriage. "If I were the woman in the Georgia case I would insist on being hanged. As a citizen any woman must bear the same responsibilities as a man. It is wrong for her to expect even Georgian chivalry."

Lucile Lugh, New York, active feminist: "Women should ask no privilege nor seek any favor. The action of the southern jury, however, doesn't sound much like the usual 'hang'."

Mrs. F. J. Shuler, New York, corresponding secretary of the National American Woman's Suffrage Association: "Women do not ask for chivalry. They expect equal rights and equal responsibilities and equal penalties."

Mrs. Adele D. Press, New York, policewoman: "I am opposed to capital punishment. But as long as it is part of the law, a woman guilty of a crime which warrants such a sentence should pay the penalty. But if the prosecuting attorney asked for a life sentence, there must be extenuating circumstances which should be taken into account."

Western Views

Margaret Mary Morgan, San Francisco suffrage leader and California first woman supervisor: "If the state law calls for capital punishment, if this woman is guilty then she should be shown no special favor, not necessarily because she has won equal rights, but because the law if existent should be invoked."

Mrs. Henry W. Cheney, Chicago, president Illinois League of Women Voters: "A wrong is a wrong and sex should not interfere with the proper administration of justice. However I am opposed to capital punishment. In Mrs. Vinson's case cannot attempt to adjudge her guilt or innocence on a broad basis. I am not a lawyer, but I believe the process of law. The penalty to fit the crime as laid in the will of the majority should be imposed."

Chinese Troops Mutiny and Kill Many Thousands

SHANGHAI, June 21.—(By The Associated Press.)—Between 10,000 and 15,000 northern forces sent against Sun Yat Sen's army in Kiangsu, province mutinied at Kianfu, burned portions of Kianfu and other nearby cities and killed thousands of the residents, according to unconfirmed but apparently authentic reports from various sources at Hankow and Nanchang. The troops were under command of General Tsai Chen Hsun, military commander of Peking.

The rebellious soldiers are reported marching back northward and burning Changshu Ki, a city about a hundred miles north of Kianfu and fifty miles north of Nanchang. A dispatch from Hankow says the British gunboat Cockchafer is speeding up the Kan river toward Nanchang to bring out the foreign residents. The American gunboat Monocacy is coaling at Kianfu and will proceed to Nanchang as soon as possible. The American gunboats Isabel and Quilos and the British gunboats Bee and Foxglove are held in readiness at Kianfu to rush to other disturbed areas if necessary to protect nationals.

The situation at Canton is quiet but ominous. Messages from adherents of Sun Yat Sen's southern government at Canton and Hong Kong say Sun has ordered his main force in Kiangsi to abandon the expedition against the Ting Fang and other leaders of the north and return to Canton. Sun Wu Canton government are reported to be still aboard Chinese warships in the neighborhood of Canton, awaiting the return of the Kiangsi army.

If Sun persists in his determination to regain control of Canton from Chen Chung Ming, who drove him out last week, the return of these troops may precipitate serious fighting for possession of the city.

The report that Sun's army is to return to Canton was given color tonight by reports from Hankow, and the Kiangsi cities of Kukiang and Nanchang indicating fighting in Kiangsi province between the northern and southern troops had ceased. The report that the northern army had mutinied and was returning northward also tended to confirm belief that Sun's forces are returning to his capital.

The protest of the American consul at Canton against bombardment of the city by Sun's gunboats will, it is believed, insure cessation of his firing on the city.

MYSTERIOUS BRAIN DISEASE

SYDNEY, N. S. W., June 21.—A mysterious disease in the southeastern districts of Queensland is puzzling the medical authorities, and has forced them to seek aid from the United States in determining its cause and, if possible, a cure.

The malady is described as being similar to meningitis, with the difference that the brain, and not the spinal cord, is affected. In one town 12 out of 15 persons afflicted died.

"Manna" milk, from the soya bean, is now being made in Vienna at one-sixth the cost of fresh milk.

Subpoenas Have Been Sent Out To Many Officials

WASHINGTON, June 21.—Subpoenas have been sent out by the special war frauds federal grand jury, it became known today, to officials of leading banking corporations in New York, Philadelphia, New Orleans and Jacksonville, requiring their appearance in connection with the investigation of the contracts under which the government disposed of its surplus lumber after the war.

Heads of the banking firms and their cashiers were ordered to produce all records of transactions made by or involving J. L. Phillips, chairman of the Georgia State Republican committee, who is at liberty on \$25,000 bail under charges of conspiracy to defraud the government through the lumber contracts. Data also was ordered produced which would throw light on dealings of Charles Phillips, r. "The J. L. Phillips Company" and John Stephens, of the Phillips and Stephens company. It was learned authoritatively today that the grand jury has been inquiring into the activities of these directors of both firms.

These subpoenas were instructed to be present before the grand jury tomorrow and during the first three days of next week. It was said the grand jury would have completed its consideration of the Phillips case by next Thursday and that its findings would be at once handed down.

PREACHER HELD FOR BIGAMY

LOS ANGELES, June 21.—Although credited with having eliminated segregated districts from several California cities, the Rev. Donald Stewart, held in the county jail here facing charges of committing bigamy in four states and netting a quartet of wives out of thousands of dollars declared today that he found that men and women of the underworld have greater hearts and were more charitable to him than the members of his own church.

"I have gone down from the time that I was unfrocked in Oakland in 1914," Stewart said, "but men and women of the underworld were kinder and more charitable to me than members of the church about whom I had heard. Not one of my flock stood by me in my trouble."

Stewart denied the charges of bigamy which have been made against him. He also denied that Mrs. Ethel Turner Osbaldeston taken into custody with him and also, it was alleged, passed as his sister and arranged Stewart's marriages, was guilty of any wrong.

Stewart was ordained as a minister in Edinburgh, Scotland, and is said to have once conducted a pastoral in Paterson, N. J.

He is wanted on charges of bigamy in Boston, Indianapolis, New York and Detroit, said Everett C. Digger, of a detective agency which made the arrest.

The title, the "Hub of the Universe" was bestowed on Oliver Wendell Holmes at the Massachusetts statehouse, and afterward it was extended to mean the city of Boston.

Bandit Held After Chase In Wyoming

Fred Brown, alias Gus Grimes, Omaha "chicken bandit," shot and captured new Melhane Bow, W. on June 17, after a "peculiar pursuit" through Nebraska and Wyoming, in stolen automobiles since May 27. This photograph was taken at the Wyoming penitentiary at Rawlins immediately after Brown's wound a clean hole through the body just above the neck, had been dressed. On May 27 Brown kidnapped two women at Omaha, locked them together with a log chain about their necks and held them captive for three days. A passing motorist, responding to the women's cries, was also captured and held prisoner two days. Brown was digging a grave for the men when the latter managed to escape. Brown fled, stealing auto after auto for more than a fortnight, 17 officers chasing along his cross-country trail. At Sidney, Neb., he captured a deputy sheriff and the town marshal, bound them with their own handcuffs and escaped into Wyoming. Four days later he was run down, his auto having bogged. He was shot while running for cover.

SOUTHERN RATE PROBE CONCLUDED

ATLANTA, Ga., June 21.—Investigation by the Interstate Commerce commission into Southern class rates, which has extended over a period of six weeks, and at which practically every traffic organization and large manufacturer in the South has been represented, was concluded here today, but will re-convene July 12 when cross examination of witnesses representing Southern roads will be conducted.

Joseph B. Eastman, of the Interstate Commerce commission has been assisted by examiners H. J. Wagner and H. C. Wilson during the hearing at which a total of 922 exhibits aggregating more than a million words have gone into the records.

A fish found along the Atlantic coast is known by the peculiar name of alewife.

Bandit Held After Chase In Wyoming

Fred Brown, alias Gus Grimes, Omaha "chicken bandit," shot and captured new Melhane Bow, W. on June 17, after a "peculiar pursuit" through Nebraska and Wyoming, in stolen automobiles since May 27. This photograph was taken at the Wyoming penitentiary at Rawlins immediately after Brown's wound a clean hole through the body just above the neck, had been dressed. On May 27 Brown kidnapped two women at Omaha, locked them together with a log chain about their necks and held them captive for three days. A passing motorist, responding to the women's cries, was also captured and held prisoner two days. Brown was digging a grave for the men when the latter managed to escape. Brown fled, stealing auto after auto for more than a fortnight, 17 officers chasing along his cross-country trail. At Sidney, Neb., he captured a deputy sheriff and the town marshal, bound them with their own handcuffs and escaped into Wyoming. Four days later he was run down, his auto having bogged. He was shot while running for cover.

PRO-TREATY MEN IN THE MAJORITY

DUBLIN, June 21.—(By The Associated Press.)—Ten seats for the new Dail Eireann remain to be filled, two in Kildare and Wicklow, and eight in Cord. These are not likely to be announced until tomorrow. The figures for the 118 seats already announced are: Pro-treaty 65; anti-treaty 33; labor 15; independents 6; farmers 5; Trinity college members 4. The Republicans are generally surprised and disappointed over the results but assert that these are due to the defective register, and they anticipate a more successful fight in the new suffrage, comprising adults of both sexes. Labor's evident opposition to them would appear to negate this hope, but they expect friction over the constitution between the labor members and the treaty party.

Several hundred farmers started the first temperance meetings in America when they met at Litchfield, Conn., in 1789 and pledged themselves not to use intoxicants in doing farm work the following year.

150,000 CHURCHES JOIN TO STOP TURKISH MASSACRES

DR. RUTH PARMALEE, AMERICAN RELIEF WORKER IN ARMENIA, WHO CHARGES NEW ATROCITIES, IN HOSPITAL AT HARPOOT, ARMENIA, WITH TWO SETS OF ARMENIAN TWINS AND ONE MEMBER OF ANOTHER PAIR.

BY EDWARD M. THIERRY

WASHINGTON, June 22.—"Keep faith with America."

Using the section of the Federal Council of Churches is appealing to 150,000 church organizations to prod Congress into action to stop Armenian massacres and given the Armenians a protected country.

The campaign is approaching a climax with the arrival in America of Dr. Mark L. Ward and Dr. Ruth Parmalee, two of the four American relief workers who were expelled from Turkish Armenia early in May because they fought against Turkish oppression.

"Armenians are suffering more now than at any time in the past," says Dr. Ward, a Newton Center, Mass. man who has been in Armenia ever since the armistice.

Dr. Ward came to see Secretary Hughes, following a conference with Lord Balfour in London. He is in possession of a secret report, detailing hitherto unpublished atrocities and horrors.

AMERICA'S ACTION
Hinges on report, probably hinges the American government's action on the proposed inter-allied investigation of the Armenian question. The United States has accepted the British government's invitation to take part in the inquiry, but the American members of the commission have not been appointed.

Joining the Federal Council of Churches in their demand for a new deal for Armenia—political protection and economic independence in addition to the relief work now in progress—are the Armenia-American Society and the Near East Relief.

Another appeal for help is being made here by A. Karimian, formerly acting president of Armenia and minister of justice of the Armenian republic, and head of an economic commission to the United States.

EXPULSION WORKERS
Dr. Ward and Dr. Parmalee, together with F. B. Yowell and Miss Isabel Harley, were expelled from Harpoot. This is the gist of their report.

Armenians are in a state of virtual slavery and are denied the use of the courts.

Christians are held in jail to

extort ransom from relatives. Turkish officials retard relief work by graft.

Greeks as well as Armenians are suffering; out of 30,000 refugees, 22,000 died.

An American relief worker counted more than 1,500 Armenian dead on the road to Harpoot, where 2,000 died last winter.

Turkish officials demand that no orphan girls be kept in American orphanages after the age of 15; they are diverted to harems.

Testimony before congressional committees shows that 20,000,000 Americans have contributed more than \$60,000,000 to relief in the Near East, 80 per cent of it for Armenia people.

DR. MARK L. WARD, AMERICAN RELIEF WORKER, WHOSE STORY OF FRESH ARMENIAN MASSACRES MAY HAVE PROMPTED THE UNITED STATES GOVERNMENT TO TAKE PART IN INTER-ALLIED PROBE.

CORD ON MILK BOTTLE COSTS BABY IN CHARLOTTE ITS LIFE

CHARLOTTE, June 21.—A cord attached to its milk bottle today strangled to death an 18-month-old child here.

In order that Robert, son of Mr. and Mrs. W. H. Wylie, might not kick its milk bottle to the floor and break it, a cord was tied to the bottle and fastened to the side of the cradle. In some manner the cord became wound around the child's neck and it was strangled before aid could reach him.

Seven Players Won Way Into Second Round

ATLANTA, Ga., June 21.—Seven players won their way into the second round of the Southern amateur golf tournament today but a rainstorm interrupted the match between T. W. Palmer, Miami, and M. C. Jones of Atlanta, just as the Florida star had squared it on the eighteenth hole.

They will settle their contest tomorrow morning before the start of the second round. The other seven survivors of today's rounds are Perry Adair, Atlanta, who meets Chris Brink, Louisville; W. C. Harris, Memphis, who plays Bobby Jones, Atlanta; Frank Cochran, New Orleans, who meets E. H. Baugh, Jr., Birmingham; and T. N. Bradshaw, Atlanta, who plays the winner of the Palmer-Jones match.

There is two rounds of eighteen holes each, but beginning tomorrow and through the finals Saturday all championship contests will be for 36 holes.

Adair, present champion, eliminated Mike Thomas, Nashville "south-eastern" 3 and 2 this afternoon after being one up at the turn. Despite the latter's good putting Brink, who holds the Kentucky championship, put F. M. Laxton, Charlotte, out of the tournament 3 and 4. In the eighth hole Laxton missed a four foot putt on No. 16 when the Kentuckian put him a stymie on No. 11. The Charlotte player put holed Brink's ball. After that Brink won Nos. 12, 13 and 14, the latter with a birdie four.

Harris showed wonderful form on the greens in the afternoon, although showing occasionally from the hole. He dominated Lester Tachau, Louisville, one up. The Memphis player shot a 78.

Bobby Jones had an easy time eliminating D. T. McRiche, Atlanta, and 2 in the afternoon. He shot the first nine against McRiche in 34, two below par, getting four birdies. The fact that his leg is still lame from an operation did not seem to affect the youthful star and tonight he still have as an opponent, the Memphis youngster.

Harris, whose left arm is strapped with tape to prevent a strained tendon affecting his work.

Cochran found Ewing Chastanera, a hard opponent in the afternoon and they turned with Watkins two up. Watkins had a sixty foot putt on No. 12 for a birdie three, after getting into a bunker but Cochran saved it on the 13th after a long putt.

Byre Watkins a stymie and won No. 17 when he holed a twelve foot putt after a wonderful recovery from a slice.

Baugh is only sixteen years of age

Don't Be Fooled—

"FOOL me once," says the proverb, "and it's shame on you. Fool me twice and it's shame on me."

Don't be fooled when it comes to spending your money. Patronizing the merchants who have a reputation for fair dealing and honesty. Such motives must actuate the consistent advertiser. The man who invests real money in building a reputation for himself and his merchandise cannot afford to risk any of it by taking unfair advantage of his patrons.

The consistent advertiser pays money to tell you about his goods. He knows they are good—he backs them with his money because he believes they will satisfy. Only merchandise which is consistently good can be consistently advertised.

So advertising protects you against fraud and inferiority. It tells you what is new and good, making you a wise buyer. It saves you money by pointing out for your consideration only the best products and the best places to buy them.

Thrifty men and women read the advertisements. To them it is a plain every-day business proposition—a duty they owe to themselves and to their pocketbooks. Don't be fooled.

Don't spend your money blindly.
Read the advertisements

WHAT LIES Beyond the Rocks
In the lives of Men & Women!
Watch this space for answer.

"Standard" Motor Gasoline is made on specifications considerably higher than those laid down by the U. S. Navy to govern its purchases.

You buy most everything on faith

PRACTICALLY everything from a cigar to a piano and from shoes to gasoline is bought on faith.

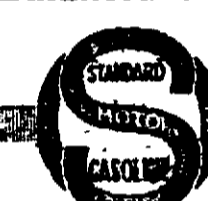

This company has kept faith with the motoring public from the early days of the horseless carriage. Present types of motors and conditions of motoring demand highly developed motor oils and gasoline.

What we have striven for, and succeeded in developing, is a gasoline that will give all-around satisfaction in modern motors—not one that is exceptional in one or two details and badly wanting in other ways.

A gasoline that is always satisfactory in starting, pick-up, power, flexibility, range and mileage is literally balanced. It is vastly superior to one that is haphazard. Use "Standard", the balanced gasoline, for maximum power and mileage and consistent economy.

STANDARD OIL COMPANY
(NEW JERSEY)

"STANDARD"
The Balanced Gasoline!

CORD ON MILK BOTTLE COSTS BABY IN CHARLOTTE ITS LIFE

CHARLOTTE, June 21.—A cord attached to its milk bottle today strangled to death an 18-month-old child here.

In order that Robert, son of Mr. and Mrs. W. H. Wylie, might not kick its milk bottle to the floor and break it, a cord was tied to the bottle and fastened to the side of the cradle. In some manner the cord became wound around the child's neck and it was strangled before aid could reach him.

**Piedmont Machine Works****MT. VERNON WINS FIRST**

GAME IN S. S. LEAGUE
In a fast, well played game Mt. Vernon defeated Cabell St. by the score of 3 to 2 in the first Sunday school league game. In this game is any indication of the balance of the games to be played, some fine exhibitions can be expected. Harnsberger on the mound for Mt. Vernon held his opponents to 2 hits, while Wm. McCubbins did nearly as well, setting down 34. Vernon's heavy hitters, who hit 3 hits. The catchers for both teams held up the pitchers in fine shape. Shelton's pegging to second being of high order. Jesse Benton showed the

base runners the way to do it, by stealing second, third and home, making them by some clever sliding. A fine catch by Horne of a liner in back of second was one of the features. Harnsberger struck out 12 men while McCubbins retired 9 by the same route.
The line-up:
Cabell St.: Thomas, 1b; Harnsberger, cf; Norton, 2b; E. McCubbins, ss; Benton, lf; Bachler, 3b; Hutson, rf; Shelton, c; W. McCubbins, p.
Mt. Vernon: Mosley, lf; Taylor, 1b; Bate, c; Brane, rf; Holcomb, ss; Kues, 3b; Ragland, cf; Horne, 2b; Harnsberger, p.

Jury Takes Snap Judgment and So Guiltless Youth Goes To Death

BY ALEXANDER HERMAN
IN Switzerland, France, Sweden, and other European countries the law provides for specific indemnities which are to be paid to innocent persons convicted of crime. But what fair restitution can be made for conviction followed by execution? What reparation could be made for the legal murder of Neil Shumway?

NEIL SHUMWAY was a young Illinois farm hand. Tired of his job, he went to Nebraska. There he lived with his brother, for a time. But the youngster wanted to support himself.

He began looking for work. After much trudging around he found a farmer named Martin who needed a hand.

The man was a hard taskmaster. The boy did not like the idleness of the farm. But there was no other work, so he accepted the job and moved out to the farm.

Is Poor Witness
A short time later, Martin's wife was found murdered.

The boy was accused of the crime. Martin was the chief witness against him.

Terrified, Neil made a poor impression on the jury. They were not satisfied with his story. They turned in a verdict of guilty.

The boy was taken back to his cell shrieking. Efforts to appeal his case failed.

Despite his protestations of innocence, he was hanged in the Nebraska state penitentiary.

NEIL MADE A POOR IMPRESSION.

Martin Confesses
Meanwhile Martin prospered. He became wealthy.

But suddenly he became ill. With death staring him in the face, he made a confession.

He had killed his wife. She nagged him too much. Neil Shumway was innocent.

The boy had paid the penalty—an innocent victim of the law.

Tomorrow: The code of Tommy Bambrick.

BONUS GIVES AWAY TO TARIFF BILL

WASHINGTON, June 21—Senate Republicans in conference today voted 30 to 9 against laying aside the tariff bill to consider the soldiers' bonus.

A resolution favoring final disposition of both the tariff bill and the bonus measure at this session and before any recess then was adopted 27 to 11. The bonus measure would be made the unfinished business after a final vote on the tariff.

Porter J. McCumber (R.), Senator from North Dakota, chairman of the Finance Committee, who has charge of both pieces of legislation, made a final effort to put the bonus ahead, but his motion mustered only nine votes. He also was author of the resolution proposing final disposition of the tariff with the bonus then to be made the unfinished business of the Senate. This resolution was opposed by 11 Republicans counted opponents of the adjusted compensation measure.

A number of Republican senators, including Hiram W. Johnson of California and Robert M. La Follette of Wisconsin, who favored speedy action on the bonus, absented themselves from the conference. A number of Democratic senators also desire early disposition of the bonus and it may be that move will be made on the floor to override the program of the Republicans, which is the approval of President Harding.

David I. Walsh (D.), Senator from Massachusetts, after learning of the action of the Republican conference, said a move to bring up the bonus would be made in the Senate after the passage of the pending naval appropriation bill.

Republican leaders thought the movement promised by Senator Walsh would fail. They counted upon Democratic opponents of the bonus to join with most of the Republicans in voting against immediate consideration of that measure. A motion to bring up the bill was expected, however, to lead to another and perhaps prolonged discussion of the bonus on the Senate floor.

The Pennsylvania was the largest ship afloat in 1896.

SOCIALISTS FAVOR MR. LA FOLLETTE

MILWAUKEE, Wis., June 21.—The Wisconsin State Socialist convention has decided to name no candidate for United States Senator against Robert M. La Follette, who is making a campaign to win the Republican nomination.

While adopting this position the Socialists also criticized part of the La Follette policy.

Victor Berger, the veteran Socialist leader, sponsored the movement to eliminate Socialist opposition to Mr. La Follette, but was opposed by several prominent party members. The resolution said: "The party takes this action in appreciation of Senator La Follette's consistent opposition to forces of organized treason in 1914, 1915 and 1916 as well as during the war and his energetic fight against the profiteers and patriots who plundered the United States treasury with full permission of the Republican and Democratic parties."

Mr. La Follette's policy of public regulation of private industry was denounced as a "costly failure in Wisconsin that has retarded public ownership of public utilities." The resolution condemned the Senator for remaining in the Republican party after being thrice defeated in presidential aspirations.

RIO JANEIRO GREET PORTUGUESE FLIERS

RIO JANEIRO, June 21.—Weather conditions and engine trouble made unpleasant the last stage of the air voyage of captains Sacadura and Coutinho, Portuguese trans-Atlantic aviators, who arrived here Saturday.

The engine of the airplane began smoking shortly after they had left Victoria, and the flyers were obliged to alight on the water to make adjustments. Soon after re-ascending, the aviators found a dense haze had spread over the ocean and they missed the Brazilian escort sent to welcome them.

The voyagers received a big reception. They were placed in the head of a procession in which public officials, representatives of the Government and civic and social organizations took part. A fund of \$50,000 was subscribed for the two men by the people of this city.

LA FOLLETTE RAIDS BUTLER

WASHINGTON, D. C., June 21.—Insertion in the Congressional Record yesterday of a recent Atlantic City speech of Dr. Nicholas Murray Butler, of New York, in which he criticized the speech of Senator La Follette, Republican, Wisconsin, before the Committee of the American Federation of Labor in Cincinnati, brought a brief reply from Mr. La Follette in the Senate today and an announcement that the Senator would speak to the Senate tomorrow.

The Wisconsin Senator said he assumed Doctor Butler was charging him with preaching doctrines anti-American and inimical to justice because he stated the Government derived or should derive its powers from the consent of the governed. That was all the Columbia president quoted of the Cincinnati address, the Senator said, adding that most men "of the ilk of Doctor Butler, who so ably serves the Wall Street interests," are ready to contend differently.

The Senator added that he could see nothing revolutionary in the statement.

CARLO SCHANZER TO VISIT LONDON

ROME, June 21.—It has now been decided that Carlo Schanzer, Italian Foreign Minister, will visit London next week after accompanying the King and Queen of Italy on a state visit to Denmark, on which they are leaving Rome today.

Signor Schanzer is expected to deal chiefly with the Near Eastern problem, also with the question connected with the Palestine mandate.

The Vatican, which has taken the greatest interest in the latter problem, has sent Monsignor Berlesina, a special mission to London, in order to point out the Vatican's point of view as regards Palestine, where, if the Balfour project is applied, the papacy of the Christians will not be safe.

It was stated that Count de Salazar, Portuguese Foreign Minister, recently visited London, and that the Portuguese Government is of the opinion that the Balfour project is the most important factor in the present situation.

As a newspaper declares the Vatican is not at all in a hurry to see the Balfour project applied, it is believed that the Vatican will not be in a hurry to see the Balfour project applied.

GUARDS JEWEL SECRET

RAWLINGS, Wyo., June 21.—Fear that they would notify the police that he had in his possession stolen jewelry led him to hold two Omaha women in chains for 36 hours. Fred Brown, shot and captured by Wyoming police after a chase from Nebraska, declared in a statement to a newspaper man here today, Brown, who is at the State prison hospital, a recovery from a bullet wound inflicted during his capture and who was returned to Omaha to answer several charges.

"This all began in Omaha soon after I had visited a resort known as the 'Gardens,' where I met a woman who accompanied me to my home where she visited me many times in the next four months," Brown said. "Once she brought a lady friend to my house where both proceeded to make themselves at home."

"Upon returning to the house quietly, I saw that they had been snooping around and found a kettle of jewelry that I had hidden. I heard them say that I must be a thief, with all that jewelry and threaten to tell the police. There was only one thing for me to do—chain them up until I could dispose of the jewelry to a fence and make a getaway."

"I did this, but one of the women managed to attract attention of a man going past. This fool butted in and I had to stick him up and treat him as I had the women. I only intended to hold them until I had disposed of the jewelry and some other junk to a fence. When I returned I saw he had broken loose. I heard the officers at the front door and beat it for the woods."

GETS CUSTODY OF HER BOY
NEW YORK, June 21.—Supreme Court Justice Delehanty today approved the report of Referee Charles L. Hoffman, awarding the custody of 9-year-old Richard E. Kemble Tucker to his mother, Mrs. Virginia Kemble Tucker, of Philadelphia, for the greater part of the year.

Under the award, the boy's father, John Tucker, banker and broker, of this city, will be given opportunity to visit his son from time to time in the city in which he is attending school. He will be entitled to his full custody for the two weeks immediately following the close of the school year, and the two weeks immediately preceding its reopening. During the remaining 48 weeks Richard will be with his mother, with whom he told the referee he "was in love."

Mrs. Tucker obtained a decree of divorce in Philadelphia a few years ago on the ground of cruelty. A few months after she obtained the divorce Tucker married Mrs. Harry K. Knapp, Jr., who, his first wife charges, was responsible for her domestic unhappiness.

Mrs. Tucker obtained a decree of divorce in Philadelphia a few years ago on the ground of cruelty. A few months after she obtained the divorce Tucker married Mrs. Harry K. Knapp, Jr., who, his first wife charges, was responsible for her domestic unhappiness.

SOME "HAND-MADE" BLOUSES AREN'T HAND-MADE

Variety, various and variable. For sport wear strictly or-ed blouses are most popular with hand-made ones following close behind. The tailored blouses are worn with four-in-hands again—brilliantly colored ones—as well as ties of other kinds. Many of the white tailored blouses are trimmed with colored edgings or colored collars and cuffs. Checked

gingham is the most popular material for these. The "hand-made" blouses are not all hand-made. Machine-made blouses with hand-done drawn work or cross-stitch are equally popular. For dress the overblouse continues to be favored. Especially attractive models are being made in sheer white cotton voile. The usual trimming is some of the new peasant embroidery.

GOLDWYN presents
MARY ROBERTS
RINEHART'S

famous story

The
GLORIOUS FOOL
directed by E. MASON HOPPER

Nearly everybody who reads has enjoyed at least one of Mary Roberts Rinehart's wonderful hospital stories. "The Glorious Fool" is perhaps the best known in this group, and Goldwyn has made it into a picture with a fine cast. Helene Chadwick and Richard Dix, two young players who won a big following, play the leading roles in this unusual comedy.

Built For Silent Travel

The muffler cut-out of a motorcycle is no more designed to be used continuously than is the warning signal.

When the going is steep and rutty in ascending a hill, a very slight addition of power is gained by allowing the exhaust a ready, early escape through the cut-out, but in ordinary usage it need rarely be called into play.

The HARLEY-DAVIDSON Motorcycle

is built with plenty of power, yet that power is exerted silently. The Harley-Davidson has a cut-out, but it is there to use only as explained above or, in "warming up" the machine, to determine whether or not both cylinders are firing.

The Harley-Davidson is popularly known as the "silent fellow". It is designed to work perfectly with the least possible noise of working parts, and exhaust noises are efficiently muffled by a muffler of the best scientific design.

Famous Banker On Allied Debt

ST. LOUIS, Mo. June 22.—The problem of requiring payment of the allied debt, or cancelling it, is "the fundamental question, upon the answer to which will depend the future of our own commercial and industrial welfare, and that of the rest of the world," said Dr. Lichtenstein, president of the Chicago Chamber of Commerce, at the convention of the Illinois Bankers Association here today. Dr. Lichtenstein then presented a summary of both sides of the controversy as voiced in a recent statement from the Chicago Association of Commerce. "Most of my time during the last months has been spent in making an economic survey of this country on behalf of the American Bankers Association," said Dr. Lichtenstein. "It is evident that there is a much greater feeling of hopefulness in the country. The most thoughtful observers feel that we have probably gone as far as we can in a rehabilitation of our conditions unless we can bring some influence to bear upon Europe—as it is Europe which is the sore spot—and I believe that in the present juncture of affairs this fact cannot be overemphasized. With the exception of Great Britain none of the European countries are

really in a position to bring about a reduction of their governmental indebtedness to us in the near future. The world has become more and more interdependent, even though it is indisputable that this general truth is less applicable to this country than to any other. To quote from a recent speech of Mr. Reginald McKenna, the very able chairman of the London Joint City and Midland Bank, 'One nation, and still more a large group of nations, cannot be broken up and impoverished so as to destroy its ability to function, without throwing the entire machine out of gear. The trade of each country is linked up with that of the whole world. Our own trade cannot recover its pre-war activity whilst so many countries continue in their present broken down condition.' And he well exemplifies that world-trade-interrelationship by showing that if Russia for instance, fails to make purchases of tea in China or India, as formerly, the result is to affect us favorably the capacity of those countries to buy cotton goods from England, which in turn leads to a reduction of the purchases of raw cotton by England in the United States and that again reacts unfavorably on England's business of shipping, banking, and insurance."

Equal Treatment Bill Is Drawn

LONDON, June 22.—Another step has been taken in the direction of securing for wives equality of treatment with husbands so far as the law is concerned. The House of Commons has given a second reading to the "Separation and Maintenance Order Bill," to give it its cumbersome official title. It is designed to straighten some matrimonial tangles and remove various matrimonial infidelities which are largely attributed to the fact that in many ways the law does not treat the sexes alike.

As the law now stands, according to the sponsor for the bill, Sir Robert Newman, a wife who wishes to prove cruelty against her husband has to leave home first, and she is torn between fear of him and fear of abandoning her children in his charge. Under the provisions of the bill a wife, while still living with her husband, would be able to take him to the police court for a maintenance order, produce a letter from his employer, stating his earnings, obtain a ruling from the magistrate laying down the portion of the wages to which she is entitled, and then take the husband home again.

Rumanian Males Cling To Skirts

PREDEAL, Transylvania, June 22.—Since Rumania wrested Transylvania from the Austrians, efforts have been made to get the men to discard their skirts and wear modern masculine attire. But they have resisted. They prefer to drape them in their embroidered shirtswaits and padded petticoats. They declare that trousers and coats are uncleanly as well as unsanitary and unbecoming, and they have given notice to the Rumanian authorities that they will brook no invasion of their traditional habits of dress. In this part of the Balkans the reputation of the women is no less notable than that of the men. The well-to-do natives wear garments made of solid gold (one over rich lace embroidery). The coins are handed down to them as heirlooms from generation to generation, the number and weight of the gold pieces being a sure token to the outside world of the degree of opulence of the wearer and an ever-present incentive to the neighboring swains to marry them.

KILLED BY TRAIN

HARRISONBURG, Va., June 21.—Raymond Whetzel, 23, was instantly killed at Woodstock, Shenandoah county today when a wagon in which he was riding was struck by Southern railway train number 46. The horse which he was driving was thrown high above the locomotive and torn to pieces and the wagon was demolished.

For a limited time only. We are giving free with each Pennsylvania Vacuum Cup Tire purchased from us One Ton Tested Tube.

K. C. AREY
Leeland Hotel Bldg.

The Kelly-Springfield Caterpillar Tire delivers the engine's full power to the road. It's side air-pockets give it a leech-like traction grip and break up the tire wrecking traction wave. They also provide a place for the rubber to flow under load which increases the tire's resiliency and prevents chipping.

That this means increased mileage, decreased gasoline consumption and general economy of operation is the testimony of dozens of truck owners right in this vicinity who will be glad to tell you their experience with Caterpillars.

Ask us to give you the name of those truck owners.
